

Career Page

For this page, you will choose a career and find out a little bit about it.

1. What is your chosen career? Why are you interested in doing this?
2. What is your annual salary? (You MUST answer this question using information from the Bureau of Labor and Statistics <https://www.bls.gov/ooh/home.htm>) Do NOT use the search. Instead, choose from the career groups on the left of the site and narrow your choice from there. If your career has an hourly wage instead of an annual salary, you may use that.
3. What education or training is required for your career?
4. Draw a picture to represent your career.
